NELSON, by Young Rolfe, book full. DICTATOR CHIEF, by Dictator, book

Purifies the Blood creates and sharpens the appetite, stimulates the digestion, and gives strength to every organ of the body. It cures the most severe cases of Serofula, Salt Rheum, Boils, Pimples, and all other affections caused by impure blood, Dyspepsia, Biliousness, Headache, Kidney and Liver Complaints, Catarrh, Rheamatism, and that extreme tired feeling.

"Hood's Earsaparilla has helped me more for catarrh and impure blood than anything elso I ever used." A. Ralle, Syracuse, N. Y. Creates an Appetite "I used Hood's Sarsaparilla to cleanse my blood and tone up my system. It gave me a good appetite and seemed to build me over."

E. M. HALE, Lima, Ohlo.

"I took Hood's Sarsaparilla for cancerous humor, and it began to act unlike anything else. It cured the humor, and seemed to tone up the whose body and give me new life." J. F. KIXON, Cambridgeport, Masa. Bend for book giving statements of cures.

Hood's

Sarsaparilla

Is a peculiar medicine, and is carefully pre-pared by competent pharmacists. The com-bination and proportion of Sarsaparilla, Dan-delion, Mandrake, Yellow Dock, and other

delion, Mandrako, Yeliow Doez, and other remodial agents is exclusively peculiar to Hood's Sarsaparilla, giving it strength and curative power superior to other prepa-rations. A trial will convince you of its great medicinal value. Hood's Sarsaparilla

In each of these stores we carry complete lines of furnishings which we will sell for cash, or a quarter cash, and the balance by the week or month. Of course we prefer to make cash sales when we can, but at the same time it has always been our aim and object to satisfy every one of our customers to the utmost, whether they wished to buy for cash or otherwise. This is the House Cleaning season of the year. Old Carpets must give place to the New, Old Chamber Sets should be replaced by those of later design. Parlor Suits that have been in use for some time are often moved into the sitting room, making room or the new Parlor Suit. That Range that you have been using for many years, per-haps takes more coal to run it to get the desired work from it than a new one would, onsequently making you a loss every day. Now we will sell you

A GREAT BARGAIN

BRADLEY'S SUPERPHOSPHATE A COMPLETE FERTILIZER FOR ALL CROPS

For 27 years Bradley's Superphosphate has been in general use over an extensive area, on all kinds of crops; and the fact that its

sales have constantly increased, notwithstanding the most severe and oftentimes unscrupulous competition, is conclusive evidence that its high standard of quality and condition has been strictly maintained. During this period it has been tried side by side with all competing brands and has been subjected to more exhaustive and rigorous tests than almost any other commodity in general use. But instead of suffering from such comparisons, it has gained greater credit and distinction, proving beyond dispute that its reputation is based purely upon its intrinsic merits. Its firmest friends and strongest advocates are those who have most thoroughly tested its qualities in the field and so proven its superiority. Unlike other phosphates that are recommended to be used only as

helps, in connection with stable manure, this phosphate is a complete fertilizer, containing all the elements of plant-food, and has, therefore, the requisite qualities to carry a crop to maturity.

For price and further particulars apply to our local agents or direct to us. BRADLEY FERTILIZER CO. 27 Kilby Street, Boston, Mass.

Martyrs to Headache

Seek relief in vain, until they begin to use Ayer's Sarsaparilla. Then they regret the years of suffering they might have escaped had they tried this remedy earlier. The trouble was constitutional not local; and, until Ayer's Sarsaparilla did its effective work as an Alternative and Blood Purifier, they were compelled to suffer.

The wife of Samuel Page, 21 Austin st., Lowell, Mass., was, for a long time, subject to savgre headaches, the result of stomach and liver disorders. A perfect our has been effected by Ayer's

Permanent Relief.

"I suffered from headache, indigestion, and deblity, and was hardly able to drag myself about the house," writes Mrs. M. M. Lewis, of A st., Lowell, Mass. "Ayer's Sarsaparilla has worked a marvelous change, in my case. I now feel strong and well as ever."

Jonas Garman, Esq., of Lykins, Pa, writes: "For years I have suffered dreadfully, every Spring, from headache, caused by inpurity of the blood and bilousness. It seemed for days and weeks that my head would split open. Nothing relieved me till I took Ayer's Sarsaparilla. This medicine has cured me completely."

me completely."

When Mrs. Genevra Belanger, of 24 Bridge st., Springfield, Mass., began to use Ayer's Sarsaparilla, she had suffered for some years from a serious affection of the kidneys. Every Spring, also, she was afflicted with headache, loss of appetite, and indigestion. A friend persuaded her to use Ayer's Sarsaparilla, which benefited her wonderfully. Her health is now perfect. Mrs. Howard next called on Mrs. Maxton. This lady's name was on the church book, but she had not been seen-in church for years. In course of conversation, Mrs. Howard told her something of the needs of the mission cause, then said, "Can you not pledge one cent per week? All church members should do as much as that."

"I can't do anything," said she. "I can't do anything," said she. "I can't make any profession whatever now. The church is not what it used to be when I joined. It has drifted beyond its moortags. People don't attend as they used to. It's getting to be rather a stylish society. There are many vacant seats. My seat is vacant, but I'm just as good as them that deem pure-hearted, earnest Christians."

"If an think of many in the church that I deem pure-hearted, earnest Christians."
"Now I can't tell for the life of me who they are."
"Do you often meet them?" asked Mrs.
"No, I can't say as I do, but I hear emough about their gossiping, cheating, and all that sort. I wouldn't give the snap of my finger for all the Christianity in this city. I believe in lifting up the poor at home. These high, tony city churches soarcely tolerate their own poor,"
"You are very wrong, Mrs. Maxton, Our church spends more for home missions than for foreign."
"Well, Esekiel and I havn't much, but if we do anything, we shall help some of the poor right here on this street."
"If I may be so inquisitive, what families have you assisted the past year?"
"Well, we've been moving this year and had a good many expenses, so I don't know as we have helped anybody in particular. We don't keep no account, nor ain't denominational. My husband, Exekiel, belongs to the Odd Fellows and Free Masons, so pays in money that way to help poor widows, and that's Bible doctrine, pure religion and undefiled. You just have your life squared by their rules, and you go ahead of any church member that ever saw the light of day. Why, it's all founded on the Bible. King Solomon, or wise Solomon, was a Mason, and I believe in living a prudent woman 'cording to his saying, not go brawiling round over the house top, leasing your husband for money for missions, when the tax gatherer and beggara are after us all the time. The farmers of Northern Penobscot in Carroll and vicinity are to have a cheese factory. The lumber is already on the ground, and work on the building is to be commenced at once. The building is to be 26x80, and will be first class in every respect. This is a good move, and if the farmers will stock up with cows so to put large quantities of milk into the factory, they will then realize something worth while out of it.

The successful manufacturer feels obliged to look carefully after all the little repairs, stop the leaks, supply the breaks and keep everything in perfect order. This insures profit. Just so should it be on the farm. Careful plowing, thorough manuring, strict attention to the condition of all machinery and tools, frequent cultivation and proper rotation of crops, these little things tell the story with the farmer. They are indispensable to success. They insure satisfactory results.

A Western breeder of Short-horns, in Grafting looking over the work of the past year among cattle, says if there has been one extremely if ght more thoroughly brought out than Slight freez any other, it is that if breeders will be suc-cessful in their business, their animals must show individual merit. There has been, in the past, particularly at the State Fairs, too much incompetent judging, and too much parcelling out awards by judges who were competent of placing them where they belonged. There has been more of this among the horses than elsewhere, but it has been seen through all the stock classes. Exhibitors are entitled to good the society, yellasses. classes. Exhibitors are entitled to good able record of judging if they want it, and if they do not torical departs judging if they want it, and if they do not torical departs they ought to be made to take it; and the judgment and the awards should in all cases correspond, and the ribbons stand as the record. Exhibitors and the public in general are in earnest in this matter. Jobbery and trickery must be cleaned out of the fairs.

Breeders all along the line are becoming educated in their business, and are working their herds, studs and flocks up to a higher standard, as that knowledge is exemplified in their stock. Along with these results they are also educating themselves to a keener earst better the stock of the standard in their stock. There is a much, provide such provides the standard in their stock. they are also educating themselves to a keener sensibility in connection with awards at the fairs. The mazagement of the fairs must keep pace with the march of progress, and come up to better things for the present day than have been required in the past. Our State fair, in many direction of the past. progress, and come up to better things for the present day than have been required in the past. Our State fair, in many directions, has been building itself up, and the Eastern is following a like course, as a model exhibition, and have a standing that the State may well be proud of. At the present time its judging is its weakest point; so it is especially gratifying to all members of the society, and to the public at large, to see that the management are giving careful attention to this important matter. It does not remedy old error that strangers be invited in here to make the awards; they must be experts in fact. Our breeders have as good stock as there is to be found in the country, and have a right to be sensitive over their treatment. It matters not so much whether the judging is by a single individual or by a committee. Competent judgment and honest awards are what is demanded. The offloers of the State society are meeting a popular demand in their efforts to this end, and they do well in applying it to all chases alike. Probably the reform is most called for in the horse classes, but there is necessity for further attention in other stock as well. Expert judging is called for all around. The offloers seem disposed to perfect this important feature to the fullest extent possible.

With the approach of spring time, and the assessing parts.

With the approach of spring time, and the setting of the deep snows, one is able to get abroad and look over the orchards. Mice were unusually plenty last season, the snow for the entire winter has been loose and dry, and as a consequence, we fear young trees may have suffered from their work. In our own particular case, however, the snow still lays so deep in the orchards as to have prevented examination up to the present time.

In case the bark is grawed by the mice, stand of the country of the soul is early any attempt is made to near the test of the soul is to be sown we have the test of the soul is early any attempt in made to near the test.
